COOKIE POLICY

Cookies are little text files containing a certain quantity of information exchanged between a website and the user's terminal (usually, the browser).

Cookies can be distinguished, based on the purposes pursued by those who use them, in technical cookies and profiling cookies. The technical cookies are those used for the sole purpose of making the websites work and make them operate more efficiently, as well as in order to provide information (in aggregate form) to the owners of the site itself. They can be divided into: (i) navigation cookies, which guarantee the normal navigation and use of the site; (ii) analytical cookies, similar to technical cookies when used directly by the site manager to collect information (in aggregate form) on the number of users and how the site is visited; (iii) functional cookies, which allow the user to browse according to a series of selected criteria (for example the language) in order to improve the service. For the installation of these cookies, user consent is not required.

Profiling cookies are those aimed at creating user profiles and are used in order to send advertising messages in line with the preferences expressed by the user. For the installation of these cookies, user consent is required.

Cookies can be installed by the site operator that the user is visiting (c.d. first party cookies) or by the manager of a different site (c.d. third-party cookies).

Cookies can be both session and persistent. Session cookies are stored in the terminal for a short period of time and are deleted as soon as the user closes the browser. Their use is strictly limited to transmitting session identifiers (consisting of random numbers generated by the server) necessary to allow a safe and efficient exploration of the site. Persistent cookies, on the other hand, remain stored in the user's terminal until a set deadline. These, not being deleted directly when the browser is closed, allow you to remember the choices made by the user on his site as well as to collect information about the pages of the site visited by the user, the frequency with which the site is visited and to identify the user navigation path, in order to improve the experience on this site.

COOKIES USED BY THIS SITE
This site uses the cookies indicated in the table below.

COOKIE MANAGEMENT
It is possible to control cookies, as well as using our banner, also manually through settings of the browser. However, the total or partial disabling of the so-called technical cookies can compromise the use of the web site functions. Anyway, in case users don't want to receive the cookies on their processor, neither from this site nor from others, they can increase the data protection level, by modifying the security settings of the browser.

CATEGORIES OF COOKIES

We inform you that this webesite installs third-party cookies since it makes use of the features offered by the Google Analytics service.
Google Analytics uses "cookies" to collect and analyze anonymous information on the behavior of use of websites. This information (including the user's IP address) is collected by Google Analytics, which processes it for the purpose of drawing up reports regarding the activities on their own websites. Google does not associate the IP address with any other data in its possession nor does it try to connect an IP address with the identity of a user. Google can also communicate this information to third parties where this is required by law or where such third parties process the aforementioned information on behalf of Google.
For more information on Google Analytics cookies and their use by Google Inc., you can consult: the information on the use of cookies by Google available at the address:
http://www.google.com/intl/it/policies/technologies/cookies/
andhttps://developers.google.com/analytics/devguides/collection/analyticsjs/cookies-usage, the information for the privacy policy Google Analytics at:
http://www.google.com/intl/en/analytics/privacyoverview.html.

NAME OF THE COOKIE	EXPIRATION DATE	CATEGORY	DESCRIPTION OF THE COOKIE
__utma	2 years	Third-party cookies	It is a cookie used by Google Analytics. This cookie keeps track of the last visit, of the previous visit and of the first visitof the user. Google Analytics uses these information from cookies to calculate things as, for example, the recency of the user and the the time passed by the first visit of the user.
__utmb	30 minutes after the end of the session	Third-party cookie	It is a cookie used by Google Analytics to calculate how long a visit takes. The cookie contains a timestamp of the exact moment when a user enters the website. The cookie is updated every time the data are sent to Google Analytics.
__utmc	End of the session	Third-party cookie	It is a cookie used by Google Analytics to calculate how long a visit takes. _utmc working together with _utmb allows to calculate how long a visit takes. The cookie contains a timestamp of the exact moment when a user leaves the website.
__utmv	Every 10 minutes	Third-party cookie	It is a cookie used by Google Analytics to allow you to create custom variables to segment different group of users, and track their behaviors.
__utmz	6 months	Third-party cookie	It is a cookie used by Google Analytics that stores the traffic source, indicates how the user joined the website (search engine, keywords, link, bookmark …).
_ga	2 years	Third-party cookie	This cookie is associated with Google Analytics and is used to distinguish users by assigning to each of them a randomly generated number as an identifier. It is used to calculate the number of visitors of the page, sessions and data in order to produce anonymized statistical analysis reports.
_gat	Every 10 minutes	Third-party cookie	This cookie is associated with Google Analytics, it is used to speed up access requests.

Furthermore the website uses the following cookies

NAME OF THE COOKIE	EXPIRATION DATE	CATEGORY	DESCRIPTION OF THE COOKIE
APISID, CheckConnectionTempCookie576, HSID, Login_INFO, PREF, SAPISID, SID, SSID, VISITOR_ INFO1_LIVE, YSC, Demographics, recently_watched, _video_id_list, use_hitbox, GED_PLAYLIST_ACTIVITY.	Between end of session and up to 2 years after.	Third-party cookies via Youtube videos	These cookies are set via embedded youtube-videos. They register anonymous statistical data on for example how many times the video is displayed and what settings are used for playback. No sensitive data is collected unless you log in to your google account, in that case your choices are linked with your account, for example if you click "like" on a video. For more information, read the general Google Privacy policy.
UID, UIDR, __gads, __utma, __utmb, __utmc, __utmt_player, __utmv, __utmz, aka_debug, clips, player, vuid.	Between end of session and up to 2 years after.	Third-party cookie Via Vimeo videos	These cookies are set via embedded vimeo-videos. They register anonymous statistical data on for example how many times the video is displayed and what settings are used for playback. No sensitive data is collected unless you log in to your Vimeo account, in that case your choices are linked with your account, for example if you click "like" on a video.
